## **Main Street Hub Headquarters Breaks Ground in East Austin**

**AUSTIN, TEXAS** – Today a ceremonial groundbreaking was held for the new Main Street Hub headquarters located at 2010 East 6<sup>th</sup> Street in Austin, Texas. The tenant, developer, investors, design and construction team, and leasing teams gathered to celebrate the kickoff of the construction.

“East6 is a first of its kind development for East Austin,” says Mike Murphy, Principal with AQUILA Commercial and lead developer on the project. “It is one of the first single-tenant Class A office developments of this size on the Eastside, and we couldn’t be happier to have Main Street Hub, a company built in Austin, occupying the building.”

The project, dubbed East6, will be a 115,000-sf single tenant office development. Three stories of office will sit atop four stories of underground and above ground parking. The property is at the heart of the booming Austin eastside, along East 6<sup>th</sup> Street between Chicon Street and Robert Martinez Jr. Street.

The property is set to deliver in Spring 2019, and Main Street Hub will occupy at that time. Main Street Hub will consolidate all 550 employees into the new headquarters.

“After working with the Main Street Hub team on numerous transactions and expansions over the years, we are proud to have helped them secure this lease for their new Austin headquarters,” says Chris Perry, Principal with AQUILA Commercial. “This location is at the center of Austin’s dynamic Eastside, including numerous restaurants, bars and multifamily developments. We consider it an honor to be part of their team.”

The project is being developed by Mike Murphy and Todd Tebbe with AQUILA Commercial, and Washington Federal is funding the development. East6 is being designed and built by The Beck Group. Chris Perry and Jon Wheless with AQUILA Commercial represented Main Street Hub in the leasing of the property.
